PROFESSIONAL SUMMARY

Software Engineer and Telecom IT Operations professional with hands-on experience in network and system operations, cybersecurity, incident management, system monitoring, troubleshooting, and technical coordination at Safaricom Ethiopia. Experienced in supporting critical telecom services in a 24/7 operational environment, analyzing system and application issues, working with network and IT teams, analyzing logs, and coordinating incident resolution. Practical knowledge of network security, firewalls, CyberArk PAM, Cisco networking, Linux/Unix, SQL, system monitoring, and security-related incident management. Currently pursuing a Master's degree in Network Security.

CORE COMPETENCIES

Network Security • Cybersecurity Operations • Network & System Troubleshooting • Security Incident Management • Network Monitoring • Firewall & Security Controls • Privileged Access Management (CyberArk PAM) • Cisco Routing & Switching • Linux/Unix • Log Analysis • System & Application Monitoring • Incident & Problem Management • Root Cause Analysis • Telecom IT Operations • Service Availability • SLA & MTTR • Cross-functional Technical Coordination • Process Improvement

TECHNICAL SKILLS

Networking & Security: Cisco Routing & Switching, Firewalls, CyberArk PAM, network/server configuration, cybersecurity, incident management

Systems & Databases: Linux/Unix, SQL, Oracle/MySQL/PostgreSQL concepts, system monitoring, application/log analysis

Programming & Development: Python, Java, PHP, HTML/CSS, JavaScript, Laravel

Tools: ITSM & Remote Operations: ITSM Platforms, MobaXterm; Database & SQL: DBeaver, HeidiSQL, SQL; Development & Version

Control: Git, monitoring: Grafana, Splunk

Professional: Problem solving, communication, teamwork, leadership, time management, technical coordination

PROFESSIONAL EXPERIENCE

Operations Center Senior Specialist | Safaricom Ethiopia

May 2025 – Present

- Provide 24/7 operational and technical support for critical telecom systems and services, ensuring service availability and timely incident resolution.
- Monitor systems and services and identify potential service-impacting issues through operational monitoring tools.
- Perform network and system troubleshooting and coordinate resolution with relevant technical teams.
- Analyze application and system logs to identify failures, service degradation, integration issues, and provisioning-related problems.
- Manage and coordinate incidents and problems across BSS and other technology domains within defined SLA and MTTR targets.
- Coordinate with Network, Cloud, IT, BSS, and other technical teams to resolve cross-functional incidents and minimize service impact.
- Perform initial root-cause analysis and support investigation of recurring incidents and service problems.
- Support security-related troubleshooting and operational activities within the assigned environment.
- Contribute to service availability monitoring, incident trend analysis, operational reporting, and continuous improvement.
- Provide technical input for system changes, troubleshooting, and operational support activities within the assigned domain.
- Support the implementation and improvement of monitoring and proactive controls to improve system reliability.

IT Officer | Berhan International Bank

2023 – 2025

- Delivered end-user IT support and technical troubleshooting.
- Supported network security activities and prepared daily and monthly operational reports.

- Supported network, system, hardware, and software troubleshooting activities.
- Worked with network and IT environments to identify and resolve operational and technical issues.

Web Developer Intern | Institution of Technology and Innovation

Jul 2021 – Sept 2022

- Developed web applications using PHP, HTML, CSS, JavaScript, and Laravel.
- Contributed to front-end and back-end development and application troubleshooting.
- Supported troubleshooting and maintenance of web application environments.

EDUCATION

Master's in Network Security — Addis Ababa University | Ongoing – 3rd Year

BSc in Software Engineering — Debre Berhan University | CGPA: 3.74 | 2019–2022 G.C.

CERTIFICATIONS & TRAINING

CCNA, CyberArk PAM, Girls can Code Project (October 2016 - August 2017), Build-in-a-Box Leadership

LEADERSHIP & VOLUNTEER EXPERIENCE

Volunteer, Africanaids Initiative International (2016) — Led community awareness sessions and received a Certificate of Appreciation. Participated in Leadership and Entrepreneurship Training.

LANGUAGES

Amharic — Excellent (Writing, Listening, Reading, Speaking) | English — Excellent (Writing, Listening, Reading, Speaking)

INTERESTS

Self-learning and professional development • Cybersecurity and technology • Web development and coding • Technology and innovation • Painting and creative design • Reading
